Guidelines:

1. The \$1,000, \$1,500, and \$2,000 Xtreme Builder Bonuses in bonus period 1 are not cumulative. A Member will be paid for their highest achieved bonus.
2. The payments at 30,000QV and 40,000QV are in addition to what the Member earns on their first 45 day Xtreme Builder Bonus. For example, if a Member accumulates 30,000QV in their second Xtreme Builder period (days 46-75, they would receive a total bonus payout of \$5,000 (\$2,000 for period 1 + \$3,000 for period 2).
3. If a Member accumulates 40,000QV within their first 30 days, they would receive the entire \$9,000 Xtreme Builder Bonus (for all 3 bonus periods) in addition to their normal commissions.
4. The first Xtreme Builder Bonus period is 45 days long, with the first period beginning on the day of signup (the day of signup is day 1, regardless of the time of day enrollment occurs). The second bonus period begins 46 days after signup and concludes 75 days from signup. The third bonus period begins 76 days after signup and concludes 105 days from signup.
5. If a Member does not accumulate enough volume in their first 45 days to qualify for first Xtreme Builder Bonus, they are still eligible to qualify for the bonuses in 2nd and 3rd periods if they reach the required volume (30,000QV in period 2 and/or 40,000QV in period 3).
6. No more than 60% of the QV to qualify for these bonuses can come from any one leg.
7. There is no XV requirement to qualify for the Xtreme Builder Challenge.
